About me:
I consider myself a proactive person with a strong inclination to learning and continuous updating. Design in all its variants, as a tool to solve existing problems, has allowed me to model ideas and projects that I was later able to materialize; However, today I am in a new stage in which I want to incorporate programming and technology into my way of life to continue offering solutions from a different approach.

WORK EXPERIENCE

ASJ - Grupo Petersen *(01/2023 - Ongoing)*
Participation in the development and continuous improvement of banking management applications for the Petersen group's banks. Mainly focused on backend development with JAVA, using frameworks such as Spring and Springboot.
Oracle database management and SQL knowledge.
Design and integration of REST APIs, use of Docker containers and version control through Git.
Active participation in all stages of the development cycle: from initial design to production deployment.
In addition, I have basic knowledge in the configuration of VPS servers on Linux systems deploying applications in Docker containers.

National Civil Registry Department (RENAPER) *(04/2011 - 01/2023)*
I work as a National identity document data verifier.
Training videos for the personnel in different areas of the Department.

Softtek *(07/2022 - 10/2022)*
Back-End application development with Java, Hibernate and Spring.
Database Administration with MySQL, SQL and DBeaver.
Development environment configuration with Docker, Jboss, IntelliJ and Maven.
Version control with Git.

Professor Assistant in the subject Math. Analysis I and II *(01/2020 - 12/2020)*
National University of Luján (UNLu).
National Routes 5 and 7 junction - Luján - Buenos Aires province - Postal Code 6700

Worked as Industrial Designer for "Mis Ladrillos" *(01/2010 - 03/2011)*
"Mis Ladrillos" is a leading brick toys company where I performed tasks as Industrial Designer, monitoring and dealing with local and foreign suppliers as well as production and quality control.

Worked as Industrial Designer for "Wolfson & Assoc." *(03/2008 - 04/2009)*
I performed tasks as Industrial Designer, 3d modeling, blueprints drawing for production as well as monitoring and dealing with local suppliers.

Spanish teacher *(03/2007 - 12/2007)*
Spanish teacher for the beginner I and II levels.
Kyung Hee University, Seoul, Korea.

Prize INNOVAR 2006 *(10/2006)*
Prize INNOVAR 2006 to the "innovative concept" for the "assistant unit for hospital cleaning" project. Exhibition at the "Centro Cultural Borges"
Info: www.innovar.gov.ar (winners 2006 section)
e-mail: concurso@innovar.gov.ar

Worked as Industrial Designer for "NOON" *(01/2003 - 10/2006)*
3d modeling and blueprints drawing for production.

Skis and snowboards tech. *(12/2004 - 04/2005 y 12/2005 - 04/2006)*
Carrying out maintenance, repair and tuning tasks for skis and snowboards.
Hunter Mountain Ski Bowl, New York 12442

"Young Talents of the Argentine Industrial Design" *(2002)*
University projects selected for the "Young Talents of the Argentine Industrial Design" exhibition, Museo de los Parques, Buenos Aires, Argentina.
Web: www.ntda.com.ar (1º edición - 2002)

"Natan 2000" contest *(2000)*
Participation at the "Natan 2000" contest, project selected and exposed at the "Bellas Artes" National Museum.
The project was also exhibited at the "Palais de Glass".
